

COURANT GROUP

100% CARBON OFFSET

The carbon footprint of Courant Group has been 100% carbon offset.

The offsetting has happened through measurable carbon reductions, verified by the strictest industry standards. Courant Group supports our portfolio of hand-picked high-quality projects.

Additional to the offsetting, Courant Group is also planting trees in the Climaider forest in Madagascar.

Through these projects, Courant Group contributes to the UN's SDG no. 13, Climate Action, as well as several other SDGs.

This certificate was issued on January 25, 2021.
